SUMMARY

Council is in receipt of an application to build a carport on the corner of Irwin and Shenton Street, Mingenew. The purpose of the application is to house their school bus.

ATTACHMENT

Nil

BACKGROUND

The residential planning Codes require that the minimum set back for a 12.5 residential corner lot shall be 50% of the front set back, which is 3.75 meters. The Starick's are requesting a setback of 2.850m from the Irwin Street entrance, 900mm short of the required 3.75m under the Residential Planning Codes.

COMMENT

An inspection of the site indicated there should be no adverse affect on traffic either entering or exiting from the lot

SUMMARY

The Shire of Morawa requests that the 2012/13 regional component of the Royalties For Regions program be allocated to a solar power generation project supplying the towns of Morawa and Perenjori.

ATTACHMENT

Nil

BACKGROUND

The Royalties For Regions – Country Local Government Fund (CLGF) funding includes a percentage (currently 50%) of Councils allocations that are to be expended on regional projects. At a meeting of the Chief Executive Officers from the area in early 2011, it was decided that the Morawa/Perenjori solar power project was a suitable project for the regional component of the CLGF in 2012/13.

Subsequent discussions between the various CEO's has revealed that of the \$1,333,111 available for CLGF regional funding in 2012/13, \$1,000,000 is needed for the solar project which enables the remaining \$333,111 to be allocated to other projects. It has been put forward that these funds should be allocated to the Exploring Wildflower Country – Midlands Route Project

COMMENT

Councils current Forward Capital Works Plan (FCWP) has the 2012/13 regional component of the CLGF allocated to the construction of a water park in the Mingenew town site. The FCWP has other major works expected to be carried out in 2012/13 in the form of the \$1.5 million construction of aged accommodation, this amount includes Councils non-regional CLGF component.

There are several options available to fund the water park construction if it is resolved to allocate the 2012/13 regional CLGF component to the Morawa/Perenjori solar power project and the Exploring Wildflower Country – Midlands Route Project. The one with the least cost to Council would be to reallocate the water park construction expenditure from the 2012/13 financial year to the 2013/14 financial year as the FCWP does not include an allocation for the regional component in this period.

Alternatively, if Council still wished to construct a water park in the 2012/13 financial year, it could decide to utilise the non-regional CLGF portion of \$283,000 currently allocated to the construction of aged accommodation to construct the water park and source either increased loan funding or greater grant funding from other sources to complete the aged accommodation. If a higher level of loan funding is sought to complete the aged accommodation then any increase in repayments could be offset by increasing the duration of the loan.

- 2. Amends the Forward Capital Works Plan to indicate a higher Council contribution towards the construction of aged accommodation by \$283,000 and the allocation of CLGF funding of \$283,000 towards the construction of a water park in 2012/13.**

9.3.2 PROPOSED LEASE FOR NBN WIRELESS BROADBAND TOWER – LOT M444 VICTORIA RD

Agenda Reference: MFI 12/11- 02

SUMMARY

Daly International, acting on behalf of Ericsson Australia and NBN Co. has requested Councils support for the lease of Lot M444 Victoria Road Mingenew for the purpose of constructing a communications tower.

ATTACHMENT

Correspondence from Daly International listing Heads of Terms for possible lease
Image indicating proposed communications tower location.

BACKGROUND

The title to Lot M444 Victoria Road was bequeathed to the Shire of Mingenew in 1959 by Mrs E Temple Russell with the proviso that the land be used for “the betterment of the children of Mingenew”, the land was subsequently vested by Council to the Mingenew P&C. The P&C has used the land for fund raising through cropping.

Daly International on behalf of Ericsson Australia and NBN Co. Limited have requested Councils (as the title holder) agreement in principal to the lease of a portion, no more that 10m x 10m, of Lot M444 Victoria Street for the purpose of installing wireless infrastructure components of the National Broadband Network. This request is not to enter into a lease but to agree to the Heads of Terms for a possible lease.

The President of the Mingenew P&C has been contacted on this matter and has been requested to provide feedback on this proposed lease but as of this date none has been supplied.

COMMENT

As a secondary matter, enquiries have been made as to whether this infrastructure would be capable of providing enhanced mobile telecommunications to the Mingenew town site and surrounds. The response received was that the electronic transmission equipment was solely for the purposes of broadband data communication and not telephony. However the tower itself is suitable for the installation of mobile telephone equipment and that the very fact that this infrastructure will already be in place may entice a mobile phone carrier to install their own equipment or alternatively make it significantly cheaper if Council was to organise the installation.

SUMMARY

Councils Draft Strategic Community Plan has been completed by the consultants and is presented for Councils review.

ATTACHMENT

Draft Shire of Mingenew – Strategic Community Plan.

BACKGROUND

The Local Government (Administration) Regulations 1996 were amended in August of 2011 with the inclusion of regulation 19C – Planning for the Future: Strategic Community Plans. This regulation requires Councils to produce and maintain a Community Strategic Plan covering a period of not less than ten (10) years. The Strategic Community Plan is to set out the vision, aspirations and objectives of the community.

Consultants were appointed and have completed the production of the draft Strategic Community Plan in consultation with Council and the electors and ratepayers of the district.

COMMENT

Regulation 19C includes subregulation 9 that requires Council to ensure that the electors and ratepayers of the district are consulted during the development of the Strategic Community Plan; this subregulation does not stipulate the level or duration of consultation required.

As Council called for submissions from the electors and ratepayers of the district prior to the development of the Strategic Community Plan and received a relatively small number of

replies, the appointed consultants who developed the plan have suggested that a second round of community consultation on the draft Strategic Community Plan be undertaken to ensure the community's needs and desires are adequately understood and included.

SUMMARY

The Draft 'Exploring Wildflower Country Midlands Route Product Development Plan' is presented to Council for endorsement.

ATTACHMENT

The Exploring Wildflower Country Midlands Route Development Plan November 2011 as prepared by Kulbardi Hill Consulting and Transplan Pty Ltd Planning and Design – separate.

BACKGROUND

In June 2009 the original "Exploring Wildflower Country" Planning Study as commissioned jointly by the Shires of Dalwallinu, Perenjori, Morawa, Mullewa and the then City of Geraldton-Greenough, was finalised. The goal of the study was to create a "drive trail" linking Dalwallinu to Geraldton via the Mullewa-Wubin Road. The intention was to encourage more travellers to use this route on their way north or south, or as a destination-specific holiday attraction. The project has commenced.

The sites nominated in that Report all fell close to the main through route: the Great Northern Highway – Mullewa Wubin Road – Geraldton Mt Magnet Road link. The project was listed as "Stage 1" and is being promoted as: "*Exploring Wildflower Country – The Wildflower Way*". The Report envisaged that other routes such as the Midlands Road or Brand Highway could be similarly developed and promoted, in order to expand the whole Exploring Wildflower Country concept – and it was this prospect that led directly to the work outlined in this Report.

In October 2011 Jessie Brampton and Mike Maher consultants involved in the project provided a briefing/presentation in Three Springs on the "Exploring Wildflower Country Project" as it impacts on the Midlands Road. Representatives of the six Shires attended the briefing together with the Shire of Morawa.

In November 2011 again in Three Springs the draft report was presented to representatives of the six Shires by Jessie Brampton.

COMMENT

As highlighted in the Executive Summary of the report the “Exploring Wildflower Country – Midlands Route” project proposes:

- Developing a further 23 interpretive sites broadly spread either side of the Midlands Road.
- Use of the same uniquely designed and visually appealing “site markers” that are being installed on the Wildflower Way – this will brand the experience and tie it into the Wildflower Country connection;
- A continuation of the Wildflower Way’s potent interpretive program, focusing strongly on creative visual images (rusty steel sculptures), with traditional text-based signage forming a “supporting act” only;
- An expansion of the application of the concepts being proposed in the ArtBelt Planning Study to the whole of Wildflower Country;
- Expanded / ongoing promotion of the outcomes of the “Exploring Wildflower Country” concept (both routes) via updating and recapitalising the Marketing Plan prepared for the Wildflower Way.

The project proposes interpretive sites in each of the 6 local authorities involved. Whilst significant work has already gone into identifying these sites, changes to the locations and the site design or layout could occur as the project is developed.

This exciting regional project in partnership with the Shires of Moora, Coorow, Carnamah & Mingenew and the City of Greater Geraldton has the capacity to provide for significant regional capacity building. The reports states that *“In the end, it must be recognised that this project has the capacity to be the foundation of a significant region changing process. As such, it comes at a cost. Pruning can be undertaken, but that too will have a cost. In this case, it is highly likely that boldness will be rewarded.”*

CONSULTATION

Two briefings have been provided by the consultants together with site visits and ongoing discussion with each of the CEO’s involved in the project. Gavin Treasure CEO Shire of Morawa and Tom Hartman former CEO Shire of Mullewa have also been involved in the briefing sessions given their involvement in initiating this project and stage one development.

FINANCIAL IMPLICATIONS

The Exploring Wildflower Country Midlands Route Product Development Plan has been funded as part of stage one with funding received by the original four local authorities.

The Project budget as listed in the report for the Midlands Route is as follows.

Item Total cost	
Major & minor site markers, and advance warning markers	123,800
Steel and galvanised cut-out interpretive sculptures	84,480
First-person interpretive signs for steel sculptures	23,520
Research, write, design and supply interpretive & map panels	89,380
Fabricate and supply steel cut-out support pedestals for map & interp panels	33,590
Directional signs, fingerboards and warning signs 50,410	50,410
Installation and construction works outlined in Section 6	110,960
Major infrastructure items (tables, seats, shade shelters etc)	22,460
Site finalisation and Project Management of purchasing & installation process	34,800
Write, design & supply 20,000 copies of updated brochure/map	11,230
Update marketing plan to accommodate this project	5,000
Marketing budget for expenditure as per plan above	51,500
SUB-TOTAL (not inc GST) \$641,130	\$641,130

TOTAL PROJECT BUDGET (not inc GST)	\$673,190
	-
TOTAL INC GST (\$66,055)	\$740,509

It is proposed that the project be funded by grants which may include the Royalties for Regions Country Local Government Fund and the Midwest Development Commission. Other funding opportunities are listed in the development plan.

Quotes from suitability qualified consultants are currently being obtained to assist in the preparation of grant applications and any business case that would need to be prepared. It is envisaged that this total cost would not exceed \$10,000. This cost (\$1,666) could be funded from Account 139120 – Area Promotion (\$14,500)

STRATEGIC IMPLICATIONS

The proposed project and the interpretive sites along the Midlands Route will have a significant impact on tourism and the economic benefits that can be derived from the increase in visitation to each of the local Authorities along the route.
