9.1.1 Proposed Policy on Financial Reporting

Location/Address: Not Applicable
Name of Applicant: Not Applicable
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

This report recommends making a policy that will improve the ability for councillors to be informed about the financial management of the Shire.

ATTACHMENT

Extract from Policy no. 3002.

BACKGROUND

In the past two months, I have had an opportunity of exploring the operation of the Shire’s accounting system and its reporting to Council. I have mentioned any concerns in two successive reports to Concept Forums.

In respect of the reporting, my reports to the Concept Forums have recommended:

1. That in future “investment reports” the terms and interest rates be disclosed in relation to each investment; and
2. That in each monthly financial report to the Council, the bank reconciliations and the end of month bank statements be presented.

The purpose of this report is to recommend that Council makes a policy to give effect to those recommendations.

COMMENT

I have already commented extensively in my reports to the Concept Forums.

I believe that more effort ought to be put into cash flow management and to optimising returns from the Shire’s financial resources. Part of that includes moving to a committal system with regard to creditors accounting, so that more accurate cash flow forecasts can be produced. However, I have not had sufficient time here to implement that change.

The other part of optimising returns from investments (apart from making more accurate cash flow predictions) is to make sure that you are getting the best returns for risk from the investments that you make. This usually involves some shopping around among different deposit taking institutions, because in the banking and insurance sector it is quite common to offer inferior deals to those who always roll over their investments with the same institution.

Although the Shire of Mingenew does not have huge sums available for investment, it is still worth looking after. Getting an extra ¼% return here or ½% return there (without accepting any more risk) can make a substantial difference to the Shire’s finances, over time. Councillors ought to be able to monitor the terms and returns of investments on a monthly basis, and form an opinion on whether the Shire’s funds are being well-managed or not.

I have already commented elsewhere on the Shire’s tardiness this year in getting its Annual Financial Statements to its auditor, after the statutory date for doing so. A large part of the delay is attributable to 12 months’ worth of bank reconciliations having to be redone because they were not being done up to date on a daily basis. It is essential that all elements of the accounting system be processed up-to-date at any point in time; the auditor should be able to arrive unannounced on any day and find that the general ledger relating to “cash at bank” is reconciled to the actual bank balance.

The only way for councillors to know that this is the case is for them to see the end of month bank statement and the bank reconciliations. It is not necessary for them to see every page of the bank statement or go through hundreds of transactions, but they should see the summary page that shows the end of month bank balance.

STATUTORY ENVIRONMENT

Local government financial reporting is governed by:

1. Section 6.4 of the Local Government Act 1995.
2. Regulations 34 to 51 of the Local Government (Financial Reporting) Regulations 1996.
3. Council policy; and
4. management information needs.

Section 6.4 of the Act is very brief and is mainly concerned with annual financial reporting. However, it does provide (along with section 6.10) the statutory basis for the making of regulations.

Regulation 34 is directed at monthly financial reporting; sections 36 to 51 are relevant mainly to the content of the annual financial report. Regulation 34 provides as follows:

(1A) In this regulation —

committed assets means revenue unspent but set aside under the annual budget for a specific purpose.

- (1) A local government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —
 - (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c); and
 - (b) budget estimates to the end of the month to which the statement relates; and
 - (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates; and
 - (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and
 - (e) the net current assets at the end of the month to which the statement relates.
- (2) Each statement of financial activity is to be accompanied by documents containing —

- (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and
 - (b) an explanation of each of the material variances referred to in subregulation (1)(d); and
 - (c) such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity may be shown —
- (a) according to nature and type classification; or
 - (b) by program; or
 - (c) by business unit.
- (4) A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be —
- (a) presented at an ordinary meeting of the council within 2 months after the end of the month to which the statement relates; and
 - (b) recorded in the minutes of the meeting at which it is presented.
- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

Therefore, if our monthly financial reports include all of the above, then we have achieved compliance. However, that is not sufficient information to be able to properly manage a Shire. If the Shire is to be properly managed, the managers need a lot of additional information. If councillors need further information to ensure that the Shire is being managed to their satisfaction, that is the role of Council policy to ensure that the information they require is provided to the Council

POLICY IMPLICATIONS

This report recommends that Policy no. 3002 be amended, and that a new policy be adopted on the content of monthly financial reports. It is anticipated that the new policy on the content of monthly financial reports will be amended and added to over time, to meet the changing requirements of the Council.

FINANCIAL IMPLICATIONS

There should be no significant cost to implementing the recommendations of this report. However, it may lead to better financial outcomes.

STRATEGIC IMPLICATIONS

Good financial management and reporting is generally considered to be strategically important for any local government; however, the recommendations in this report have not been assessed against the Shire of Mingenew' Strategic Plan.

- Approved by Council, and
- Licensed by the Australian Securities and Investment Commission.

REPORTING AND REVIEW

- (a) Documentary evidence must be held on file for each investment and an investment register maintained by filing the monthly investment report to council in the Register.
- (b) The investment policy will be reviewed annually or as required in the event of legislative changes.
- (c) A monthly report must be provided to council detailing the investment portfolio.
- (d) The annual financial report is to include information on earnings from investments as specified by Financial Management Regulation (FMR) 49.

9.1.2 Proposed amendments to the Delegations Register to bring into line with the requirements of the Local Government Act 1995

Location/Address: Not Applicable
Name of Applicant: Not Applicable
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

This report proposes that all delegations that purport to be directly from the Council to offices other than the CEO be amended so that the delegation from the council as to the CEO in accordance with the requirements of section 5.42 of the Local Government Act 1995.

ATTACHMENT

Nil.

BACKGROUND

I have recently reviewed the Shire of Mingenew’s Delegations Register. I have noticed that some of the delegations (eg. Delegation no. 31 in respect of Building Licenses) purport to be directly from the Council to the “Building Surveyor” (even though we don’t have a Building Surveyor).

COMMENT

Since the enactment of the Local Government Act 1995, councils have had the power to delegate authorities to:

- a) Committees – pursuant to section 5.16 of the Act.
- b) The CEO - pursuant to section 5.42 of the Act.

The CEO may then (and in relation to some authorities, usually would) sub delegate to other officers.

There is no statutory authority within the Local Government Act for the Council to delegate authorities directly to officers other than the Chief Executive Officer.

There is no authority within the Local Government Act for other officers to sub delegate - sub delegation is a power reserved only to the Chief Executive Officer.

There are very good reasons for this; principally that the legislation is aimed at Councils being able to hold the CEO accountable for the operation and performance of the whole organisation. So even where some older legislation (such as the Health Act) provides the power for Council to delegate directly to other officers, it is generally considered bad practice to do so.

Having reviewed the Delegations Register, I can say that I am generally very impressed with it in terms of its format and detail. It could be improved by having an Index by Officer, so that each officer could get a summary of their own delegations rather than having to look through all the delegations by subject.

Producing such an index is an administrative task, and does not require any resolution from the Council.

The other deficiency is that some of the delegations are purported to be directly from the Council to offices other than the CEO, and the purpose of this report is to rectify that matter.

All delegations must be reviewed at least annually, and it is up to the CEO to ensure that those delegations that he does not wish to reserve to himself are sub-delegated by him to an appropriate officer.

STATUTORY ENVIRONMENT

Section 5.16 of the Local Government Act 1995 provides that a Council may delegate certain powers and authorities to committees. It provides as follows:

- (1) Under and subject to section 5.17, a local government may delegate* to a committee any of its powers and duties other than this power of delegation.
** Absolute majority required.*
- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.
- (3) Without limiting the application of sections 58 and 59 of the *Interpretation Act 1984* —
 - (a) a delegation made under this section has effect for the period of time specified in the delegation or if no period has been specified, indefinitely; and
 - (b) any decision to amend or revoke a delegation under this section is to be by an absolute majority.
- (4) Nothing in this section is to be read as preventing a local government from performing any of its functions by acting through another person.

The limitations on the delegations to committees in section 5.17 of the Act are as follows:

- (1) A local government can delegate —
 - (a) to a committee comprising council members only, any of the council’s powers or duties under this Act except —
 - (i) any power or duty that requires a decision of an absolute majority or a 75% majority of the local government; and
 - (ii) any other power or duty that is prescribed;
 and
 - (b) to a committee comprising council members and employees, any of the local government’s powers or duties that can be delegated to the CEO under Division 4; and
 - (c) to a committee referred to in section 5.9(2)(c), (d) or (e), any of the local government’s powers or duties that are necessary or convenient for the proper management of —
 - (i) the local government’s property; or
 - (ii) an event in which the local government is involved.
- (2) A local government cannot delegate any of its powers or duties to a committee referred to in section 5.9(2)(f).

Section 5.18 of the Act provides that a register of delegations to committees is to be kept, and that such delegations are to be reviewed at least annually:

A local government is to keep a register of the delegations made under this Division and review the delegations at least once every financial year.

Section 5.42 of the Local Government Act 1995 provides as follows:

- (1) A local government may delegate* to the CEO the exercise of any of its powers or the discharge of any of its duties under —
 - (a) this Act other than those referred to in section 5.43; or
 - (b) the *Planning and Development Act 2005* section 214(2), (3) or (5).

* *Absolute majority required.*

- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.

[Section 5.42 amended by No. 1 of 1998 s. 13; No. 28 of 2010 s. 70.]

Section 5.43 of the Act establishes the limits on the authorities that may be delegated to the CEO:

A local government cannot delegate to a CEO any of the following powers or duties —

- (a) any power or duty that requires a decision of an absolute majority or a 75% majority of the local government;
- (b) accepting a tender which exceeds an amount determined by the local government for the purpose of this paragraph;
- (c) appointing an auditor;
- (d) acquiring or disposing of any property valued at an amount exceeding an amount determined by the local government for the purpose of this paragraph;
- (e) any of the local government's powers under section 5.98, 5.98A, 5.99, 5.99A or 5.100;
- (f) borrowing money on behalf of the local government;
- (g) hearing or determining an objection of a kind referred to in section 9.5;
- (ha) the power under section 9.49A(4) to authorise a person to sign documents on behalf of the local government;
- (h) any power or duty that requires the approval of the Minister or the Governor;
- (i) such other powers or duties as may be prescribed.

Section 5.44 of the Act provides the mechanism by which delegations of authority are made to other officers:

- (1) A CEO may delegate to any employee of the local government the exercise of any of the CEO's powers or the discharge of any of the CEO's duties under this Act other than this power of delegation.
- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.

- (3) This section extends to a power or duty the exercise or discharge of which has been delegated by a local government to the CEO under section 5.42, but in the case of such a power or duty —
 - (a) the CEO's power under this section to delegate the exercise of that power or the discharge of that duty; and
 - (b) the exercise of that power or the discharge of that duty by the CEO's delegate,

are subject to any conditions imposed by the local government on its delegation to the CEO.

- (4) Subsection (3)(b) does not limit the CEO's power to impose conditions or further conditions on a delegation under this section.
- (5) In subsections (3) and (4) —
conditions includes qualifications, limitations or exceptions.

Section 5.45 of the Act provides some further clarifications, including that nothing in the section prevents the council or the CEO from exercising its authorities through a person other than the CEO. This is generally accepted to mean that the Council or the CEO may exercise its authorities through a person who is not an employee (for example, a lawyer).

Section 5.46 of the Act specifies the review requirements for delegations of authority, as well as some other requirements such as record keeping:

- (1) The CEO is to keep a register of the delegations made under this Division to the CEO and to employees.
- (2) At least once every financial year, delegations made under this Division are to be reviewed by the delegator.
- (3) A person to whom a power or duty is delegated under this Act is to keep records in accordance with regulations in relation to the exercise of the power or the discharge of the duty.

POLICY IMPLICATIONS

Although both the Policy Register and the Delegations Register cross-reference each other, the changes recommended in this report will not impact on the policies.

9.1.3 Senior Employees – Revocation of Designation under section 5.37 of the Local Government Act 1995

Location/Address: Not Applicable
Name of Applicant: Not Applicable
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

It is proposed that the Council resolves that there be no Senior Employees for the purpose of section 5.37 of the Local Government Act 1995.

ATTACHMENT

Nil.

BACKGROUND

It is recommended that the Council resolves that there be no Senior Employees (other than the CEO) for the purpose of section 5.37 of the Local Government Act 1995.

Hitherto, the positions of Manager of Finance and Administration and Works Manager appear to have been treated as “senior employees” for the purpose of section 5.37 of the Act. The Manager of Finance and Administration’s Contract of Employment was issued under the Shire’s seal and signed by the Shire President.

For employees so designated, a number of other legislative requirements are invoked that makes it more difficult and expensive to recruit to such positions because of all the statutory requirements that have to be fulfilled. It also makes an issue for review and oversight by the Department of Local Government.

Currently, the Works Manager’s Contract of Employment has never been finalised nor executed; it would certainly facilitate the early resolution of this situation if the position was no longer designated for the purpose of section 5.37.

We also currently need to make a permanent appointment to the position of Manager of Finance and Administration, and this will be more speedily and cheaply achieved if that position is also not designated for the purpose of section 5.37 of the Act.

COMMENT

I understand the good reason why, at the time, the Council resolved to designate these positions for the purpose of section 5.37 of the Act.

However, those circumstances no longer exist and, generally speaking, councillors in a small Shire such as the Shire of Mingenew prefer not to be so involved in staff matters as they are required to be in respect of positions designated under section 5.37.

In my humble opinion, the best way to operate a small Shire like Mingenew is for the Council to deal with the CEO, and for the CEO to run the rest of the team without hands-on involvement from the Council.

CONSULTATION

STATUTORY ENVIRONMENT

Section 5.37 of the Local Government Act 1995 provides as follows:

- (1) A local government may designate employees or persons belonging to a class of employee to be senior employees.
- (2) The CEO is to inform the council of each proposal to employ or dismiss a senior employee, other than a senior employee referred to in section 5.39(1a), and the council may accept or reject the CEO's recommendation but if the council rejects a recommendation, it is to inform the CEO of the reasons for its doing so.
- (3) Unless subsection (4A) applies, if the position of a senior employee of a local government becomes vacant, it is to be advertised by the local government in the manner prescribed, and the advertisement is to contain such information with respect to the position as is prescribed.
- (4A) Subsection (3) does not require a position to be advertised if it is proposed that the position be filled by a person in a prescribed class.
- (4) For the avoidance of doubt, subsection (3) does not impose a requirement to advertise a position where a contract referred to in section 5.39 is renewed.

The designation of senior employees for the purpose of section 5.37 of the Act then invokes a whole lot of other legislative requirements, including (but not limited to) regulation 18 a of the Local Government (Administration) Regulations 1996:

18A. Vacancy in position of CEO or senior employee to be advertised (Act s. 5.36(4) and 5.37(3))

- (1) If a position of CEO, or of a senior employee, of a local government becomes vacant, the local government is to advertise the position in a newspaper circulating generally throughout the State unless it is proposed that the position be filled by —
 - (a) a person who is, and will continue to be, employed by another local government and who will fill the position on a contract or contracts for a total period not exceeding 5 years; or
 - (b) a person who will be acting in the position for a term not exceeding one year.
- (2) An advertisement referred to in subregulation (1) is to contain —
 - (a) the details of the remuneration and benefits offered; and
 - (b) details of the place where applications for the position are to be submitted; and
 - (c) the date and time for the closing of applications for the position; and
 - (d) the duration of the proposed contract; and
 - (e) contact details for a person who can provide further information about the position; and
 - (f) any other information that the local government considers is relevant.

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

It is cheaper to fill positions that are not designated for the purpose of section 5.37 of the Act, because advertising for those positions is not mandatory in a situation where there is already somebody available with the required skills to fill the position, and because even where advertising is necessary or desirable, the content of the advertisements are not prescribed.

9.1.4 Proposed Delegation of Authority to the CEO in respect of the recovery of debts

Location/Address: Not Applicable
Name of Applicant: Not Applicable
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

It is proposed that authority be delegated to the CEO to recover debts owed to the Shire, so that such recoveries can be dealt with administratively without involving decisions of the Council.

ATTACHMENT

Nil.

BACKGROUND

There is another report to this meeting dealing with an offer by a sundry debtor to offer less than half the money owed in “Full and Final Settlement” of his debt.

In the circumstances, I will not be recommending that his offer be accepted.

In other Shires that I have worked for, I would not have put this matter before the Council but would have dealt with it administratively. However, on searching our delegations register, we have been unable to find any delegation that would enable us to deal with it.

I suspect that that is the reason that (much to my surprise) the matter of this particular debtor was put before the September council meeting.

COMMENT

If the Council is of the view that, as a general principle, people should pay their debts to the Shire, then the most effective way of achieving that would be to delegate authority to the CEO to recover all debts and to let the administration get on with it.

In my experience in other local governments, councillors would rather not know about the debts of individual debtors, because if the debtors approach them to plead for the debts to be forgiven they can legitimately say that it is an operational matter and that the Council does not get involved in debt recovery.

Furthermore, involving the Council always necessarily involves delays and, in my experience, the more promptly we can get onto recalcitrant debtors the easier and cheaper it is to recover the debts, and the more likely we are to achieve success

CONSULTATION

Acting Manager of Finance and Administration.

STATUTORY ENVIRONMENT

Section 5.42 of the Local Government Act 1995 provides the authority for the Council to delegate its powers in relation to debt recovery to the CEO.

Section 5.42 of the Act has already been recited in detail in another report to this meeting, and it is not necessary to recite it again here.

POLICY IMPLICATIONS

Policy no. 3006 DEBT COLLECTION already provides a framework for procedures; however, subparagraph 2 of the policy requires specific approval to be given by the Council for the CEO to take legal action in respects of rates and charges.

Subparagraph 4 of the policy suggests that the CEO requires Council approval before issuing summonses, and subparagraph five of the policy requires the CEO to get Council's authorisation before utilising the services of a debt collector for outstanding rates.

Subsection 3006.2 of the policy deals with sundry debtors and does not specifically state that the Council approval is required in respect of recovering sundry debts, however, there is no specific delegation in the delegations register that would enable officers to get on with this task.

It is therefore also recommended that policy number 3006 be amended to remove the requirement for the CEO to get Council approval in respect of taking debt recovery action.

FINANCIAL IMPLICATIONS

Prompt action in respect of recovering debts owing to the Council can only improve the Shire's financial position.

Having said that, I observe that (compared to other local governments) we do not have a huge problem with doubtful and bad debts

9.1.5 Application for RAV7 permitted vehicle to operate through Mingenew town site

Location/Address: Mullewa-Mingenew rail line crossing
Name of Applicant: Montano Bulk Haulage Pty Ltd
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

We have received an application from the Managing Director of Montana Bulk Haulage Pty Ltd requesting approval to operate a RAV 7 vehicle through the Mingenew townsite, and specifically over the Mullewa-Mingenew rail line crossing.

ATTACHMENT

Undated letter from Christopher Maisey

BACKGROUND

Montana Bulk Haulage Pty Ltd is a Geraldton-based transport company that is contracted to transport bulk petroleum products for BP Australia.

The company is seeking the Shire’s approval to operate a RAV 7 vehicle through the Mingenew townsite to supply a mine north of Wubin.

The applicant states that he understands from Main Roads W.A. that the Shire’s approval is necessary to operate this vehicle type on this route.

The applicant proposes two trips per week, operating year-round. The applicant seeks the Shire’s approval to operate on the following streets:

- Midlands Road (Main Street at Mingenew)
- Boolinda Street
- Eleanor Street
- Mullewa-Mingenew Road
- Mingenew-Morawa Road

The applicant goes on to say that his firm’s vehicles are fitted with advanced truck safety equipment including GPS vehicle tracking and other equipment that allows the firm to record vehicle tracking in real-time with vehicle speed and location data. I guess he is trying to say that they expect to achieve a very high level of compliance in respect of any conditions with regard to speed, curfews, etc.

COMMENT

The applicant doesn’t state what other approvals are required, apart from the approval of the Shire of Mingenew. I would have guessed that the owner of the railway line would have been a significant stakeholder.

The applicant states that the firm proposes to commit to a number of self-imposed safety procedures which are listed in the letter. I would recommend that, if the Council wishes to approve this use, that those procedures are written into the approval as “conditions”.

As the letter did not state the length of the configuration that the applicant proposes to use, I called Mr Maisey to clarify that issue. He advised that the configuration would be 36.5 m in length.

I understand that the maximum length that can be accommodated in the stacking distance to the railway crossing is about 27 m. That being the case, the application should be declined because the length of the configuration is too long to be accommodated within the railway crossing stacking distance.

I note that a recent application from a mining company was also refused for this reason.

OFFICER RECOMMENDATION – ITEM 9.1.5

That:

1. The application from Montana Bulk Haulage Pty Ltd to operate a RAV7 permitted vehicle through the Mingenew townsite be refused, because it is proposed to use a configuration which is 36.5 m in length whereas the maximum length that can be accommodated within the railway crossing stacking distance is 27 metres.
2. Mr Maisey be informed of the decision, and of the reason therefor.
3. The applicant also be informed of its right of appeal to the State Administrative Tribunal.

141008 COUNCIL RESOLUTION – ITEM 9.1.5

Moved: Councillor Cosgrove

Seconded: Councillor Lucken

That the application from Montana Bulk Haulage Pty Ltd to operate a RAV7 permitted vehicle through the Mingenew townsite be approved, subject to the following conditions:

- the vehicle is not to exceed a maximum speed of 40 km/h through Mingenew town site
- the truck headlights are to be turned “On”; and
- observation of operating curfews of 0700 – 0900 hrs & 1430 – 1600 hrs (ie. School start and finish times).

The Chief Executive Officer
Shire of Mingenew
PO Box 120
Mingenew WA 6522

Dear Sir/Madam,

Re- Application for RAV 7 permitted vehicle to operate though Mingenew town site:

My name is Chris Maisey and I am the Managing Director of a Geraldton-based transport company, Montana Bulk Haulage Pty Ltd.

Montana Bulk Haulage Pty Ltd is contracted to transport bulk petroleum products for BP Australia throughout the mid-west regions of Western Australia.

I am seeking your Shire's approval to operate a RAV 7 Vehicle operating under Main Roads Concessional Bulk Loading Scheme though the Mingenew Townsite to supply a mine north of Wubin.

Currently our RAV 7 permit route endorsement states we are unable to use this particular type of vehicle combination over the Mullewa-Mingenew rail line crossing at the Mingenew Town Site.

The understanding I have from Main Roads Western Australia is that your Local Government approval is necessary in order to operate this vehicle-type on this route.

The RAV 7 Network allows road access on either side of the Mingenew Townsite, although not through the actual Main Street of Mingenew.

We also seek your Shire's approval to operate on the below streets

- Midlands Road (main street at Mingenew)
- Boolinda Street
- Eleanor Street
- Mullewa-Mingenew Road
- Mingenew-Morawa Road

The operations I propose would involve the performance of two (2) trips per week, operating year round.

If your shire approves this application, I undertake to ensure our company's highly regarded Safe Operating Procedures are maintained at all times.

If approval is granted to this application we propose to commit to the self-imposed safety procedures listed below:

- Not exceeding a maximum speed of 40 km/h though Mingenew town site
- Truck head lights to be turned “ON”
- Observing operating curfews of 0700 – 0900hrs & 1430 – 1600hrs (school start/finish times)
- Not exceeding a maximum speed of 80 km/h on the Mingenew-Morawa Road

I would also like to add that Montana Bulk Haulage has fitted it’s vehicles with advanced truck safety equipment which includes:

- GPS Vehicle-tracking
- On-board cameras (Driver Cams)
- EBS on tankers (electronic stability control systems)
- ABS on prime movers (anti-lock braking systems)

Our GPS tracking system records all vehicle tracking in real-time, with vehicle speed and location data; this data is transmitted “live” to Montana’s Narngulu office where it is stored for compliance purposes. If an exemption is granted by your Shire I would provide you with a written undertaking to make this data available to you if requested in order to demonstrate our company’s compliance with these provided undertakings, or any other undertakings that may be imposed by your Council as a part of any approval given.

Yours faithfully,

Christopher Maisey

Managing Director,
Montana Bulk Haulage Pty Ltd

SHIRE OF MINGENEW
NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD 1 JULY, 2014 TO 30 SEPTEMBER, 2014

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of this statement of financial activity are:

(a) Basis of Accounting

This statement is a special purpose financial report, prepared in accordance with applicable Australian Accounting Standards, other mandatory professional reporting requirements and the Local Government Act 1995 (as amended) and accompanying regulations (as amended).

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 9.

(c) Rounding Off Figures

All figures shown in this statement, other than a rate in the dollar, are rounded to the nearest dollar.

(d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(e) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables are stated inclusive of applicable GST.

(f) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities.

(g) Trade and Other Receivables

Trade receivables, which generally have 30 - 90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less any allowance for uncollectible amounts.

Collectibility of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

SHIRE OF MINGENEW
NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD 1 JULY, 2014 TO 30 SEPTEMBER, 2014

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Inventories

General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories held from trading are classified as current even if not expected to be realised in the next 12 months.

Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Local Government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

(g) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

Buildings	30 to 50 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Sealed roads and streets	
clearing and earthworks	not depreciated
construction/road base	50 years
original surfacing and	
major re-surfacing	
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads	
clearing and earthworks	not depreciated
construction/road base	50 years
gravel sheet	10 years
Formed roads (unsealed)	
clearing and earthworks	not depreciated
construction/road base	50 years
Footpaths - slab	40 years
Sewerage piping	100 years
Water supply piping & drainage systems	75 years

SHIRE OF MINGENEW
NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD 1 JULY, 2014 TO 30 SEPTEMBER, 2014

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 "Impairment of Assets" and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the Income Statement.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of preparing this report, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2012.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on the Monthly Statement of Financial Position from a budgetary perspective.

(l) Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

(m) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the municipality has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Council expects to pay and includes related on-costs.

(ii) Annual Leave and Long Service Leave (Long-term Benefits)

(n) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

SHIRE OF MINGENEW
NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD 1 JULY, 2014 TO 30 SEPTEMBER, 2014

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

(p) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on Council's intentions to release for sale.

The budgeted transfers to reserves outlined below have been done in September 2014.

Land & Building Reserve	40,600
Plant Replacement Reserve	50,000

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

Land & Building Reserve

- to be used for the acquisition, construction and maintenance of land and buildings.

Plant Replacement Reserve

- to be used for the purchase of plant.

Accrued Leave Reserve

- to be used to fund annual and long service leave requirements.

Aged Persons' Units Reserve

- to be used for the funding of future operating shortfalls of the aged persons' units in accordance with the management agreement Council has with Homeswest.

Street Light Upgrade Reserve

- to be used for the upgrade of street lights in the town of Mingenew.

Painted Road Reserve

- to be used for the painted road and associated projects.

Industrial Area Development Reserve

- to be used for the development of the industrial area.

Environmental Rehabilitation Reserve

- to be used for the rehabilitation of Gravel Pits.

RTC/PO/NAB Reserve

- to be used for the maintenance and upkeep of the Rural Transaction Centre

None of the above Reserves are expected to be used within a set period as it is envisaged that further transfers to the reserve accounts will occur as funds are utilised.

All land except exempt land in the Shire of Mingenew is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2014/2015 financial year have been determined by Council on the basis budget and the estimated revenue to be received from all sources of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

11.2.1 Appointment of interim CEO

Location/Address: Not Applicable
Name of Applicant: Not Applicable
Disclosure of Interest: Nil
Date of Meeting: 15 October 2014
Author: Warren Olsen – Chief Executive Officer

SUMMARY

To formally appoint Mr Mark Dacombe as interim CEO

ATTACHMENT

Nil.

BACKGROUND

At its September meeting, the Council resolved to contact Mr Mike Fitzgerald to source suitable interim CEO to cover the period from the effective date of my resignation on 22 October 2014 through to the commencement of the new CEO, Mr Martin Whitely.

It is proposed to appoint Mr Mark Dacombe as the interim CEO for this period.

Acting under the delegated authority of the Council, the Shire President has already made a written offer, which Mr Dacombe has accepted.

To keep the Department of Local Government smiling, Council ought now to formally resolve to make this appointment.

COMMENT

Mr Mark Dacombe has extensive experience as a local government CEO in New Zealand and WA, as well as having served as an advisor on governance and local government to the NZ Department of Prime Minister and Cabinet.

Mr Dacombe served as CEO at the City of Canning from February 2009 to May 2012, and as Acting CEO at the Shire of Pingelly from July 2013 to January 2014.

CONSULTATION
