#### Summary

This report outlines the options available to Council for the construction of the upgrade of the Mingenew Netball Courts and associated facilities.

It is felt that with the current staffing structure and experience, and the need to prioritise the undertaking of the WANDRRA storm damage roadworks, it would be prudent for Council to manage this particular construction program through either an internal project manager or a “design and construct” contractor.

#### Attachment

Nil.

#### Background

In December 2017 representatives from the Mingenew Netball Club attended a Concept Forum and gave a presentation to Council to update it on the status of the Netball Courts. It was agreed that the Netball courts should be a priority. A submission to the March 2018 Department of Local Government, Sport & Cultural Industries CSRFF funding round was prepared and Council at its 21 March 2018 meeting resolved that it would:

1. Endorse the proposal from the Mingenew Netball Club to make a funding submission under the Department of Local Government, Sport & Cultural Industries CSRFF funding round in March 2018;
2. Endorsed the funding submission on the basis of the Mingenew Netball Club contributing a minimum cash contribution of \$55,000 (GST Exclusive);
3. Agree to a Shire provide cash contribution of up to \$63,707 (GST Exclusive) towards the project;
4. Agree to the Shire providing in-kind support for site works required; and
5. Make provision in the 2018/19 Budget for the project to be completed in that financial year.

The grant application was submitted and was successful and a grant for \$66,458 has been offered by CSRFF.

#### Comment

Preliminary considerations have been given to how best to manage the project, and two options present themselves –

1. Call tenders as soon as possible for a contractor who can undertake the entire works (less the “in-kind” component), giving them sufficient time to undertake the necessary planning prior to works commencing post the 2018 netball season; or
2. Secure the services of a project coordinator, who can coordinate the program as originally proposed, using several individual contractors.

One of the first tasks for example, is to undertake some preliminary investigations to understand exactly what caused the netball court surface damage. This information will inform the design for the eventual netball court construction, ensuring that the new facility will not fail earlier than should be expected. It will therefore be important to undertake some core sample tests to 600mm, to understand the existing base course materials. This information will suitably inform the design of the base/sub-base of the netball court pavement, which might warrant a specific sub-base design (like the need for geo-textiles or sand-pads), the

eventual elevation of the courts and also drainage design. The sampling process will require part of the courts to be opened up and resealed, which if done now, needs to be undertaken in consultation with the Netball Club to ensure the finished surface is safe for players. A drainage design needs to be prepared for the immediate and surrounding impacting area and this will likely require the need for drainage/piping, and/or some protective barriers around the court's perimeter fencing to protect it from stormwater.

That sampling "inconvenience" might be able to be avoided if the Shire were to promptly call for tenders to have a contractor design, coordinate, and construct the project, knowing that there is a tight timeline between the end of the 2018 netball season, and the commencement of the 2019 season. There is time for either option, but early decisions need to be made.

It is not considered practical with the staffing structure/experience that is presently in place for that supervisory role to occur using existing staff, particularly as the Shire needs to prioritise the undertaking of the WANDRRA storm damage roadworks to maximise potential revenues.

### **Consultation**

Nil

### **Statutory Environment**

The Local Government Act 1995 at S3.57(1) (Tenders for providing goods or services) requires that in certain circumstances, a local government is to invite tenders before it enters into a contract of a prescribed kind under which another person is to supply goods or services. The Local Government (Functions and General) Regulations 1996 at Cl.11(1) (When tenders have to be publicly invited) clarifies that tenders are to be publicly invited if the consideration under the contract is, or is expected to be, more, or worth more, than \$150,000.

### **Policy Implications**

The Shire of Mingenew's Purchasing Policy requires three written quotations for an expected purchase in the range of \$40,000 - \$149,999 and tenders to be called for projects with a cost exceeding \$150,000.

### **Financial Implications**

The submission received from the Netball Club had a total budget cost of \$214,574. This was greater than the \$200,000 cut off for projects usually funded through the CSRRF grants program, however it was agreed to apply for the grant on the basis that eventual tender pricing could be lower than the quotes provided and that the Netball Club was keen to progress the funding application so that the project could be completed prior to the 2019 netball season.

The Netball Club advised that whilst it currently only has capacity to contribute an amount of up to \$55,000 (plus \$15,000 in-kind) the Club was actively pursuing other funding opportunities and that if required, it would look at taking out a self supporting loan from the Shire if this was requested by Council.

Should eventual costs be as originally predicted, and based on a 1/3<sup>rd</sup>, 1/3<sup>rd</sup> a 1/3<sup>rd</sup> basis, each party would contribute \$71,524 however due to the maximum \$200,000 project limit, the CSRRF grant offered was \$66,458. The Shire was therefore asked to contribute \$77,907 (\$63,707 cash and \$14,200 in-kind) and the Netball Club \$70,000 (\$55,000 cash).

The total available funds will be sufficient to undertake the project so long as costs are consistent with estimates (or lower), no variations or contingencies are required, and the project is managed and coordinated "in-kind" by volunteers/the Shire. The risk of a cost over-run due to variations and contingencies is however, considered to be "high" for either option, due to the "unknowns" of what lies below the existing courts. The project is though, a relatively low cost project so any over-runs in dollar terms, should be manageable.

The costs of undertaking core sample tests and providing results would be in the order of \$4,000.

#### OFFICER RECOMMENDATION – ITEM 9.1.1

That Council;

##### Option 1-

Authorise the calling of a “Design & Construct” tender, to invite interest in the construction of the new Mingenew Netball Court facility. Tenders to be, amongst other things, on the basis that the successful tenderer will need to work cooperatively with the Mingenew Shire, the Mingenew Football Club, and the Mingenew Netball Club, and that the construction period will be limited to the “off netball season”.

OR

##### Option 2 –

Advertise for a part time staff member to undertake the task of Project Coordinator for the construction of the new Mingenew Netball Court facility, working cooperatively with the relevant stakeholders and contractors to undertake that task.

### Summary

The civil works contract for the Western Australia Natural Disaster Relief and Recovery Arrangements (WANDRRA) project is to be considered by Council at the July meeting. Works are anticipated between the months of September/October 2018 to April 2019.

Whilst it is anticipated that there will be sufficient cash flow capacity within the Shire to accommodate the fortnightly contractor payments whilst collating, submitting and awaiting refund receipt from Main Roads WA (which generally take between two to four weeks to occur) it would be prudent to obtain an overdraft facility for the abovementioned period of these works.

An overdraft facility of \$500,000 should provide for one months WANDRRA cash flow capacity and needs to be incorporated into the Shire's 2018/19 budget consideration process.

### Attachment

NIL

### Background

At the June 2018 Council Meeting, Council approved the appointment of the WANDRRA Flood Damage Supervisor and the Contractor(s) tender to supply the Road Construction Plant and Equipment will be presented to the July Council Meeting for its decision. Mingenew had numerous roads that were damaged in the storm event and the cost to undertake the reinstatement of the roads is estimated to be \$3.2m, which will be funded by a WANDRRA grant. The Shire is keen to undertake as much of the work as possible itself, and has commenced repairing some of the roads already, but there will be a considerable balance to be undertaken on a contract basis as the work must be completed and grants acquitted by 30 June 2019.

The expected fortnightly account for several months of the contractor works is \$250,000. Whilst it is anticipated that there will be sufficient cash flow capacity within the Shire to accommodate these fortnightly contractor payments, undertake the collation and preparation of the grant refund application, and then submit and awaiting refund receipt from Main Roads WA (which generally take between two to four weeks to occur) it would be financially prudent to obtain a \$500,000 overdraft facility for the abovementioned period of these works.

### Comment

An application is being prepared for submission to the National Bank for such an overdraft, but a Council resolution is required as endorsement and budget approval is also required.

### Consultation

National Australia Bank.

### Statutory Environment

Section 6.20 of the Local Government Act (Power to borrow) provides the authority for a local government to obtain an overdraft, to enable it to perform its functions.

Where the details of that proposal have not been included in the annual budget for that financial year, the local government must give one month's local public notice of the proposal; and the resolution to exercise that power is to be by absolute majority.

Also, the Local Government (Financial Management) Regulations 1996 require overdraft facilities to be noted in the annual budget and the annual financial report (r. 29 and 48). The facility will not otherwise need to be advertised.

As Council will settle its budget in August 2018, there should be sufficient time to finalise the bank application and approval process before the overdraft facility is required in September/October 2018.

### **Policy Implications**

Policy 1.3.4 (Significant Accounting Policies) provides direction for the preparation of financial transactions and financial reporting, including interest on overdraft facilities.

### **Financial Implications**

Whilst the Shire's rate funds and other grants should provide sufficient cash flow to accommodate the contractor payments, there will be a "negative cash flow" for this project whilst awaiting refunds from Main Roads WA, it would be prudent therefore to provide an overdraft facility to accommodate a worst case scenario of having two fortnights refund claims outstanding. That would equate to approximately \$500,000.

### **Strategic Implications**

The Corporate Business Plan 2011-21 does not specifically capture the issue under consideration, but it does outline that one of the Shire's outcomes is *"An open and accountable local government that is respected, professional and trustworthy."*

### **Voting Requirements**

Absolute Majority

## **OFFICER RECOMMENDATION – ITEM 9.1.2**

### **That Council:**

1. Notes the potential for a negative cash-flow to exist during the several months period of the WANDRRA works (September/October 2018 to April/May 2019) and agrees that an overdraft facility is a prudent risk management solution to that potential; and
2. Endorses the processing of an application for a \$500,000 overdraft facility with the National Bank for the 2018/19 financial year, for inclusion and final endorsement within the 2018/19 budget consideration process.

#### Summary

The Shire undertook a review of all delegations and this was presented to the June 2018 Council meeting. A difficulty has been encountered however with the Building Delegation that warrants a modification.

It is proposed that the Building Act Delegation be limited to just the position of Coordinator of Building Surveying until a list of officers and suitable restrictions for those officers at the City of Geraldton can be developed.

#### Attachment

Attachment 1 Building Delegation 2011 Delegation.

#### Background

Sections 5.42 and 5.44 of the Local Government Act 1995 prescribes that Council may delegate certain powers and duties to the Chief Executive Officer. A variety of other legislation (including the Building Act) also permits the delegations of functions to the Chief Executive Officer, as well as other officers. A delegation authorises persons or a class of persons to exercise powers that the Council would ordinarily exercise.

The aim of delegated authority is to assist with improving the time taken to make decisions within the constraints allowed by relevant legislation. Without delegated authority, many decisions of the Shire would need to be made by Council at its ordinary meetings. Having appropriate delegations in place allow day to day decisions to be made by the Chief Executive Officer, who in turn can sub-delegate to other staff as appropriate. This enables the administration to effectively manage the large volume of routine work of a local government and facilitates timely service delivery to the community. Furthermore, it allows Council to focus on policy development, representation, strategic planning and community leadership.

Delegations that are made by a delegator are required to be in writing and recorded within a register. Conditions can be set for the use of any delegation.

The Shire of Mingenew has its building licensing/building customer advice provided through a Memorandum of Understanding with the City of Geraldton, however a difficulty has arisen in regard to the need to suitably restrict different levels of officers delegation limits, and the legislative need for Financial Interest Declarations to be completed by those officers with delegation.

#### Comment

Whilst there is no expectation that the Shire's building licensing and advice will alter from being provided by the City of Geraldton, in light of the many competing priorities the Shire is dealing with presently, the best short term solution is proposed to be that the Council withdraw the delegation from the "City of Geraldton Building Officers acting for the Shire of Mingenew". This delegation can then be "sub-delegated" via the CEO.

In the first instance, the CEO will sub-delegate the necessary delegation to the Coordinator of Building Surveying (Geraldton) and once the details of which other Geraldton Officers actually require delegation, and what limitations need to be put in place, they will be added. These delegated offices can then complete

their Primary and Annual Financial Interest Returns (which is a standard requirement for every officer with delegation).

### **Consultation**

Neil Hartley                      Chief Executive Officer  
Dave Gibson                      Coordinator of Building Surveying (Geraldton)

### **Statutory Environment**

Building Act at S127 (6A) (Delegation: special permit authorities and local governments) provides that the CEO may delegate to any other local government employee a power or duty of the local government that has been delegated to the CEO.

### **Policy Implications**

Delegation CD12 (Building Act 2011).

### **Financial Implications**

Nil.

### **Strategic Implications**

This proposal will support the achievement of the following objectives and strategies detailed in the Community Strategic Plan:

Outcome 4.2.1 Continue to deliver quality local government services

Outcome 4.5.1 Ensure compliance with local, town planning, building and health, and all other relevant legislation

### **Voting Requirements**

Absolute Majority.

## **OFFICER RECOMMENDATION – ITEM 9.1.3**

### **That Council:**

1. Modify its CD12 Delegation (Building Act 2011) by deleting the authority to “City of Geraldton Building Officers acting for the Shire of Mingenew”; and
2. Notes that the CEO will sub-delegate the necessary delegation to the Coordinator of Building Surveying (Geraldton) in the first instance, and other Geraldton officers once suitable delegation parameters have been settled.

34. Financial activity statement required each month (Act s. 6.4)

(1A) In this regulation —

***committed assets*** means revenue unspent but set aside under the annual budget for a specific purpose.

(1) A local government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —

- (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c); and
- (b) budget estimates to the end of the month to which the statement relates; and
- (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates; and
- (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and
- (e) the net current assets at the end of the month to which the statement relates.

(2) Each statement of financial activity is to be accompanied by documents containing —

- (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and
- (b) an explanation of each of the material variances referred to in sub regulation (1)(d); and
- (c) such other supporting information as is considered relevant by the local government.

- (3) The information in a statement of financial activity may be shown —
  - (a) according to nature and type classification; or
  - (b) by program; or
  - (c) by business unit.
- (4) A statement of financial activity, and the accompanying documents referred to in sub regulation (2), are to be —
  - (a) Presented at an ordinary meeting of the council within 2 months after the end of the month to which the statement relates; and
  - (b) Recorded in the minutes of the meeting at which it is presented.
- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.
