

Anthony Smith

Dear Mingenew Shire Resident,

I am proud to call Mingenew home, and my wife Freya and I are fortunate to have two young children, who we want to have the same opportunities and experiences that living in a rural community offered us.

As a current Councillor I now have a greater insight into local government and wish to use this experience to continue advocating for our town; for small business to develop and prosper; to improve aesthetics and amenities for our community and to continue the promotion of our region as a great place to live and visit.

As a local small business owner/operator and an active member within the community, I consider myself to be very approachable and hope to continue as your community representative on Council to ensure the betterment and future prosperity of our Shire if re-elected.

Sincerely  
Anthony Smyth
