CHIEF EXECUTIVE OFFICER
LOCAL GOVERNMENT AUTHORITY

REFORMS TO DECISION MAKING ON DEVELOPMENT OF SINGLE HOUSES

Earlier this year the Minister for Planning announced that a number of planning reforms would commence on 1 July 2024, including changes to local government roles and responsibilities in decision making on development applications for single houses.

This reform will see implementation of Part 4 of the *Planning and Development Amendment Act 2023* supported by amendments to *Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations* that:

- introduce a new section 257C into the *Planning and Development Act 2005*, which provides the ability for regulations to specify that certain types of development applications must be determined by the officers of the local government; and
- amend Schedule 2 of the Regulations to specify that a single house development or any development associated with a single house such as additions, alterations, patios or carports, where not otherwise exempt, are to be determined by the Chief Executive Officer (CEO) of the local government or other local government officer/s authorised by the CEO. This will not apply to any heritage protected place as defined in Schedule 2.

The rationale for this reform was outlined in the material available during the public consultation period between October 2023 and January 2024. The Department would like to thank everyone who took the time to provide feedback on the draft amendments to the Regulations, which has been reviewed and no changes were recommended. The amendments to the Regulations have now been finalised, will come into effect on Monday 1 July 2024 and can be viewed [here](#).

As a result, from 1 July 2024, the determination of development applications for single houses or any development associated with a single house, excluding development of or associated with a heritage protected place, must be made by the CEO of the local government or employees authorised by the CEO. This cannot be determined by Council.

In preparation for the commencement of this reform you are advised that you should:

- review and update the register of delegated authority from Council to remove any references to development approval functions for single houses and associated development, except in relation to a heritage protected place;

- where necessary, prepare and approve the appropriate authorisations from the CEO to local government officers. The CEO is automatically authorised under the Regulations and there is no action required by a local government to authorise a CEO; and
- consider any necessary updates to reporting to reflect the new authorisations. This may only be required if your local government reports regularly to Council on planning decisions made under delegated authority.

Local governments that utilise the services of a consultant or other contractor to assess single house development applications can continue to have a contractual arrangement with a private consultant or other contractor to provide services regarding assessment, analysis, preparation of reports for development applications and the making of a recommendation with conditions and/or reasons.

From 1 July 2024, that report and attachments must be provided to the CEO or other authorised local government officer who will consider the recommendation and make the decision. The procurement of consultants and contractors remains subject to the provisions of the *Local Government Act 1995* and the changes to decision making outlined above does not impact those provisions.

Further detail on this reform can be viewed [here](#). For further information please contact planningreform@dph.wa.gov.au.

Yours sincerely

Anthony Kannis PSM
Director General

COUNCIL POLICY Works

1.5.5

Title:	1.5.5 SIGNAGE AND INFRASTRUCTURE STYLE GUIDE
Adopted:	19 June 2024 (NEW)
Reviewed:	-
Associated Legislation:	Disability Discrimination Act 1992
Associated Documents:	N/A
Review Responsibility:	Works Manager
Delegation:	-

Previous Policy Number/s: Nil

Objective:

To provide guidelines for signage and infrastructure installed in public spaces within the Shire of Mingenew to ensure safety, consistency, value for money and enhancing functionality and visual appeal.

Policy Purpose:

The Shire's outdoor spaces help Council to tell our story, be inviting and informational, and enhance the natural environment. They should be speaking to the many riches of our Shire, including our prime agricultural industry, our connections to culture and history and our vision for the future:

"Mingenew is a safe, inclusive and connected community with a thriving local economy that provides opportunity for all to succeed."

The Signage and Infrastructure Style Guide aims to show how our public spaces can portray this messaging by creating a uniform approach to installations and designs.

This strategy is intended to be used by:

- Council staff when preparing detailed designs for streets and open spaces as part of public domain improvements; streetscape upgrades and asset replacement;
- The community and Councillors to provide an understanding of the values, priorities and design principles that guide our approach to the public domain;
- Developers, designers and consultants when preparing proposals that affect the public domain and its components when undertaking works in accordance with conditions of consent; and
- Council's Planning team when assessing and approving development applications.

Design Principles

Character and design

- Reinforce the visual character and narrative for the Shire as discussed in the Vision;
- Provide unified public spaces that showcases high quality, durable and timeless design;
- Enhances and protects the aesthetic beauty or vistas;
- Improves connection with and within natural and man-made spaces, such as waterways, main street, parks etc.
- Products to reflect the level and type of activities and uses; and

- Materials and colours that reflect and reinforce the natural beauty and heritage attributes of Mingenew.

Consistency

- Where appropriate, identifiably branded as Mingenew
- Match colour palette with branded style guide, ensuring style elements are locally meaningful, universally appealing, and improve brand appeal
- Design, colours and materials are consistent within the precinct or project-theme

Functionality

- Contributes to user experience
- Installed in logical locations
- Creates an inviting and comfortable environment that people want to use and linger in.
- Provides for universal access, where possible
- Where appropriate, design and detailing make it difficult as possible to damage, steal or vandalize property.
- Safety of all users
- Provide shade, either through trees or shade structures as applicable depending upon the urban or landscape environment.
- Maximise opportunities for sitting and resting, whether they be formal (such as by using seats and benches) or informal (with small areas of lawn or seating walls).
- Focus on the quality of amenity in the public open space, rather than size by introducing elements and functions best suited to the space, whether it be playgrounds, barbecues, shelters, paths, boardwalks, feature planting, shade trees, level changes and/or the like.

Availability

- Lead time for supply
- Supplier location (preferred local supplier)
- Ability to match discontinued products
- Ease of replacement

Life cycle cost

- Cost of product including installation
- Quality regarding design life under normal conditions and warranty
- Waste minimisation and the ability to be recycled
- Embodied energy
- Fair trade

Maintenance

- Ease and availability of parts, fixings and construction
- Ease of cleaning and handling
- Ease of repairing vandalism (graffiti, chewing gum etc)
- Ability to be certified to withstand extreme weather e.g. flood, heat, wind
