Policy Purpose:

This policy was developed in response to requests from the public for upgrading of road assets which provide a benefit to individuals as well as to the broader community, but which cannot be fully funded from funds available to Council. This policy provides the opportunity to combine public funds with private contributions to enable worthwhile projects to proceed.

Policy:

Council will consider applications from certain organisations or individuals to contribute to budgeted / scheduled Shire road projects or works on Council's road network. This may include the contribution of:

- Water, gravel and other road base material (including carting to the site)
- Plant

The CEO may grant approval for the reimbursement of fuel for carting services which must be outlined within a written agreement / form.

See *Council Policy 1.5.1 Road Building Materials Acquisitions* for compensation for materials extracted for construction and maintenance purposes.

The CEO reserves the right to exclude any party acting under the agreement from entering a roadwork site for safety reasons, as the 'person conducting a business or undertaking' (PCBU). The PCBU has a primary duty under the *Work, Health and Safety Act 2020* to ensure the health and safety of workers while they are at work in the business or undertaking and others who may be affected by the carrying out of work, such as visitors, volunteers and contractors.
